FADDOM

Proactive IT Strategy at Johnson Brothers with Faddom

Faddom helped Johnson Brothers support change management, cybersecurity initiatives, and IT documentation with speed and clarity. As the **Senior IT Architect**, Kyle Wetzel was looking for a platform that was quick to implement, simple to use, and capable of delivering real-time insights to guide strategic decisions.

Organization Details

- Industry: Manufacturing
- Employee Size: 1,001-5,000
- Location: Minnesota, United States

With **Faddom,** Johnson Brothers gained the visibility and speed to support IT decisions and reduce risk.
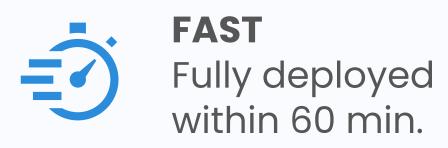

Fast & Intuitive Deployment

Easy to launch and operate, delivering immediate visibility without disrupting daily operations.

Informed Change Management

Continuously updated infrastructure maps supported informed and low-risk change execution.

Accurate IT Documentation

Automatically captured system dependencies to keep records accurate and always up to date.

FAST
Fully deployed within 60 min.

SECURE
No agents or credentials needed.

COST-EFFECTIVE
Pricing that makes sense for you.

Agentless Application Dependency Mapping

Faddom is an **agentless platform** that helps organizations across different industries and regions visualize their entire on-premise and cloud infrastructure as business application maps in **as little as 60 minutes.**

Be proactive and plan ahead by always having dynamic, accurate IT documentation that **updates continuously and automatically 24/7.**

> **The implementation was swift, and within minutes, we were getting relevant insights.** It's intuitive, promotes proactivity, and the real-time visualization ensures strategic decisions are made with confidence.
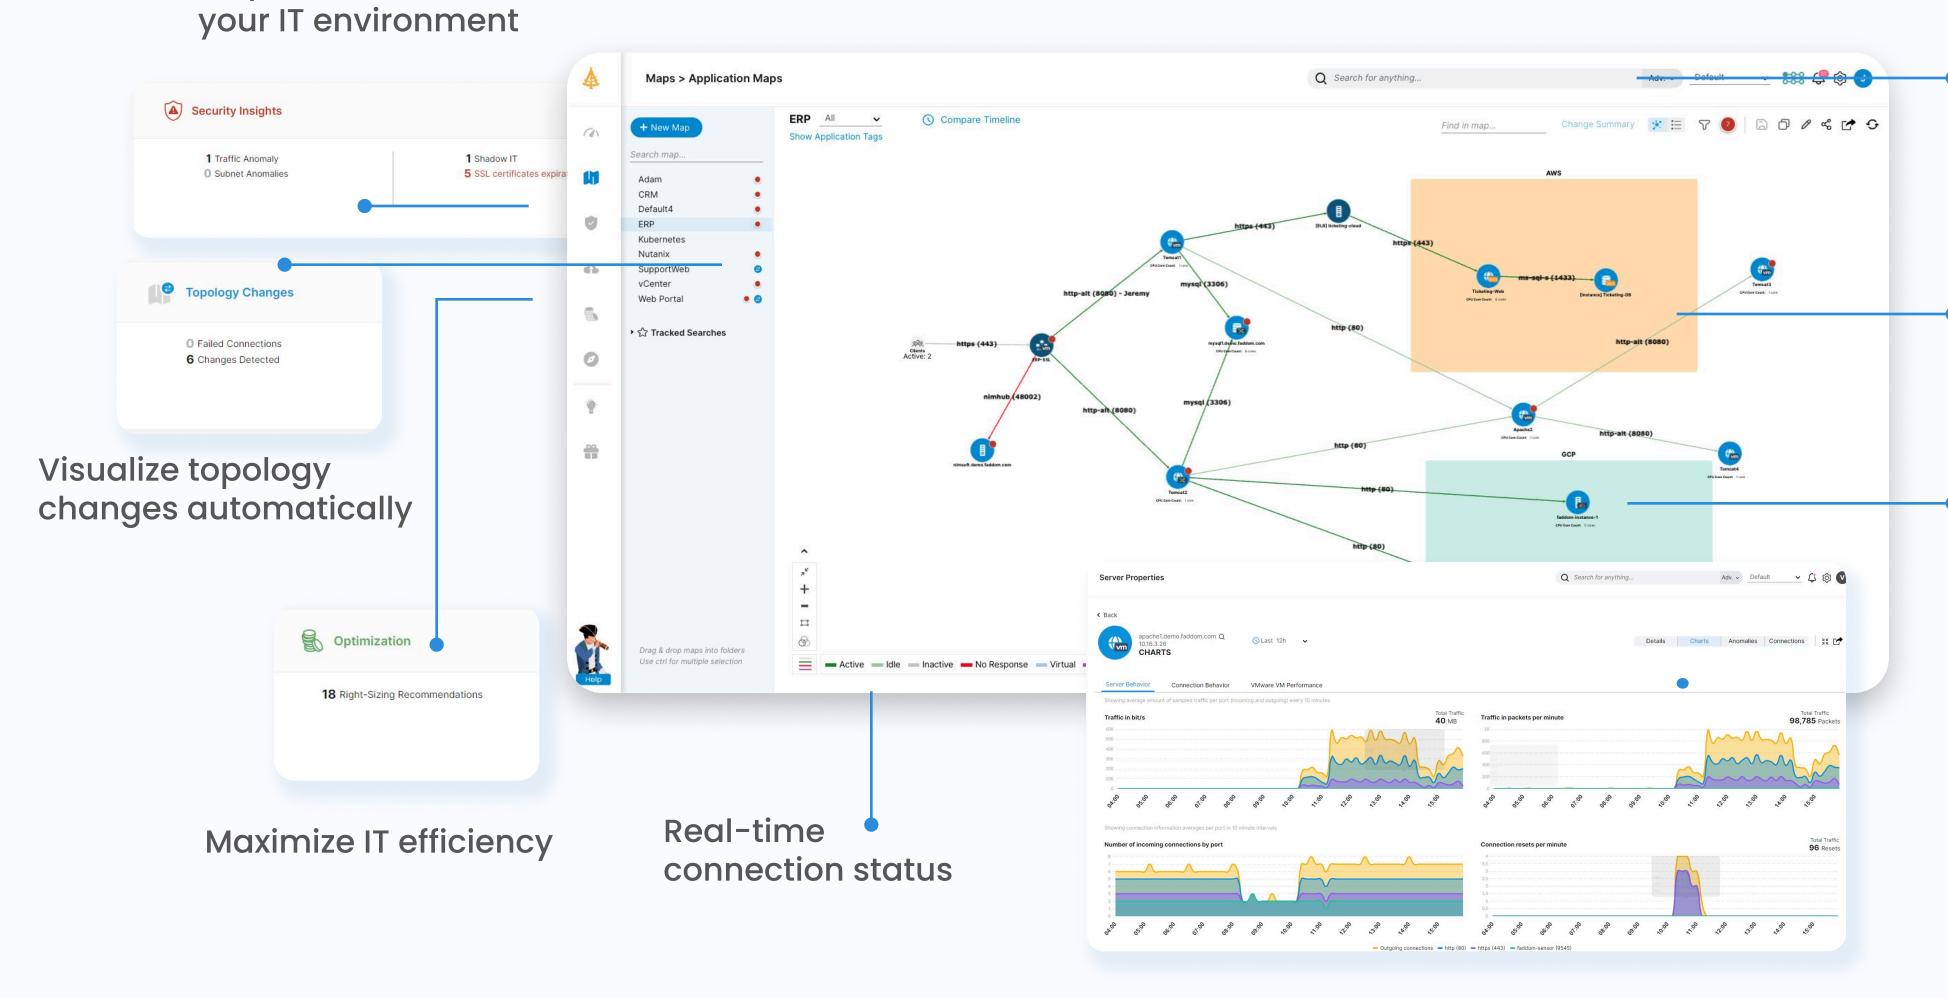

Kyle Wetzel
Senior IT Architect
at Johnson Brothers

Kyle's experience with Faddom at Johnson Brothers shows how *real-time visibility and an intuitive platform* can empower IT teams to make smarter, faster, and more secure decisions in complex manufacturing environments.
